MOSQUITO CONTROL MADE TO LAST

Altosid® P35 combines our tried-and-true compound, (S)-methoprene, with a cutting-edge, spherical design to create a unique granule formulation. Altosid® P35 allows for accurate, canopy penetrating drone applications, while delivering 35 days of residual mosquito control in continuously wet conditions. And it's just one way we're changing the game when it comes to protecting public health. This is Mosquito Control Evolved.

Katherine Brisco	Consolidated MAD

Charges:

1. *Aedes* Response BMP's
 - a. Provide *Aedes* BMP guidance
 - i. Action steps: Coordinate and host quarterly *Aedes aegypti* training topics and meetings
 - ii. Action steps: Using CDPH *Aedes* response document and previous work completed by Vector and Vectorborne Disease Committee, create an *Aedes* response guidance checklist.
 - iii. Potential Challenges: *Aedes* control methods and BMP practices vary widely among individual districts; collecting usable and comparable data may be difficult.
 - iv. Timeline: End of 2026
 - v. Status: New Charge
2. Cannabis and Hemp Farm Guidance
 - a. Provide informational and guidance documents for vector control operations on cannabis and hemp farms
 - i. Action steps: Collect information to develop a white paper for vector control operations on cannabis and hemp farms.
 - ii. Action steps: in coordination with the Public Relations Committee, provide guidance materials for districts conducting vector control operations on cannabis and hemp farms.
 - iii. Potential Challenges: None
 - iv. Timeline: End of 2026
 - v. Status: New Charge
3. Pollinator Notification Guidance
 - a. Provide guidance materials for districts regarding the pollinator notification process.
 - i. Action steps: In coordination with the Public Relations Committee, create templates and talking-point material for the notification process.
 - ii. Potential Challenges: Agricultural departments may have varying process for districts under their jurisdiction.
 - iii. Timeline: End of 2026

COMMITTEES

- iv. Status: New Charge

Standing Charges:

4. Pesticide Resistance Monitoring and Management.
 - a. Resistance Testing Tool Kits and Resources
 - i. Action: Post second CDC bottle bioassay toolkit links on MVCAC site and completes third tool kit for methods outside of CDC kit.
 - ii. Resources needed: Coordination with board and MVCAC site host to vet and upload links.
 - iii. Timeline: Spring 2026
 - iv. Status: In progress
 - b. Evaluate the proposed updates to the VectorSurv Bottle Bioassay data entry process in CalSurv to enhance user experience and improve data utility.
 - i. Action steps: Continue the 2025 meetings with Chris Barker and Tim Valedepena to discuss recommended modifications outlined in the 2025 CalSurv modification recommendation document.
 - ii. Resources needed: Three Committee members.
 - iii. Potential Challenges: Scope of work, resistance is multifaceted with several groups including AMCA working on similar topics
 - iv. Timeline: End 2026
 - v. Status: In progress
5. Annually review CDPH guidance documents
 - a. Annually review CDPH Guidance documents, including Guidance for Surveillance of and Response to Invasive Aedes Mosquitoes and Locally Acquired Exotic Mosquito-Borne Infections Transmitted by these Mosquitoes in California and The Best Management Practices (BMPs) for Mosquito Control in California and recommend updates as necessary.
 - i. Action steps: Review and update current documents, update guidelines if needed.
 - ii. Resources needed: Committee member time.
 - iii. Potential Challenges: None.
 - iv. Timeline: Ongoing
 - v. Status: Due Spring 2026
6. Pesticide use and registration recommendations
 - a. Develop recommendations on pesticides and their use, and on their registration status and related issues.
 - i. Action steps: Quarterly check-in with vendors about new products and label changes. Include updates in quarterly report to the Board.
 - ii. Resources needed: None.
 - iii. Potential Challenges: None currently
 - iv. Timeline: Ongoing
 - v. Status: Ongoing
7. Biological Control Organisms
 - a. Develop information on availability, use and impact of biological control organisms.
 - i. Action steps: Hold quarterly teleconference with mosquitofish personnel throughout the association.
 - ii. Resources needed: Commit to time/discussions related to quarterly teleconferences. Organize and secure guest speakers for teleconferences. Prepare and distribute discussion topics for teleconference. Provide ongoing

-
- support, consultation, and resources to mosquitofish personnel in the association.
 - iii. Potential Challenges: None
 - iv. Timeline: Quarterly
 - v. Status: Ongoing
- 8. Emerging Technologies in Mosquito Control**
- a. Develop and maintain information on emerging and innovative mosquito control technologies.
 - i. Action steps: Identify and review new and upcoming technologies.
 - ii. Resources needed: Committee Time
 - iii. Potential Challenges: Nothing significant currently
 - iv. Timeline: Quarterly
 - v. Status: Ongoing
- 9. CARB**
- a. Monitor Carb regulations, guidance, and policy changes relevant to mosquito control activities and provide updates as needed,
 - i. Action steps: Monitor for updates and changes and provide updates as needed
 - ii. Resources needed: Committee Time
 - iii. Potential Challenges: Nothing significant
 - iv. Timeline: Ongoing
 - v. Status: Review and update as needed

Jessica Madden (Co-Chair)	Shasta MVCD
Kara Kelley	Sacramento-Yolo MVCD
Hannah Corman	San Diego County VCP
Christopher Barker	UC Davis

Standing Charges:

1. Partner with DART to establish fees for proficiency panels, positive controls, reagents and other support consumables to enhance standardization between labs.
 - a. Action steps: Fees will remain unchanged for 2026. Proficiency panel participation forms for 2026 were emailed in December. We are continuing correspondence with Eric Blasser, our new point of contact at CDPH.
 - b. Resources needed: None
 - c. Potential Challenges: None
 - d. Timeline: Ongoing
 - e. Status: Ongoing.
2. Negotiate with vendors on pricing for consumables used in vector control laboratories.
 - a. Action steps: Schedule a meeting with Lucy to discuss pricing for 2026.
 - b. Resources needed: None
 - c. Potential Challenges: None
 - d. Timeline: Ongoing
 - e. Status: Ongoing
3. 2025 Charge continued: Develop PacVec training videos on placing mosquito traps and identification.
 - a. Action steps: BG trap Video
 - i. ADA requirements research .
 1. Last meeting (November the 18th) there was a concern that moving forward without ADA requirements might require significant re-editing later.
 2. Jessica reached out to
 - a. Accessibility Works - a compliance- check company in Sacramento
 - b. Accessibility Innovations - a compliance check company in Sacramento
 - c. The IT committee
 - d. A recommended strategy for creating PacVec Videos has been developed - needs review and discussion.
 - e. A re-shoot is needed for correct demonstration of trap handling steps

- ii. Olivia is providing Kim with specific script instructions for the re-shoot.
- iii. Chris is getting advice from Celia.
- iv. Gravid trap video
- v. Gravid trap script was sent to the subcommittee for approval and was approved Tuesday, November 18th.
- vi. Goal film in Feb or March
- vii. Adult Sampling Methods Videos No updates at this time.
- b. Resources needed: Potential help from the IT committee, potential funds for validating ADA compliance through an expert.
- c. Potential Challenges: Funding
- d. Timeline: BG trap video reshoot in the Spring, Gravid trap video due to film in February or March of 2026.
- e. Status: Ongoing
- 4. 2025 Charge continued: Develop a Repository for surveillance and testing protocols.
 - a. Action steps:
 - i. There are a few districts that need to be contacted to verify some details in the tick testing protocols but otherwise this is close to completion.
 - b. Resources needed: None
 - c. Potential Challenges: None
 - d. Timeline: Ongoing
 - e. Status: Ongoing.
- 5. 2025 Charge continued: Develop a CDZ testing Protocol and Proficiency Panel.
 - a. Action steps: Panel offering frequency reduced to every two years due to decreased participation and lower pool submission.
 - b. Resources needed:
 - c. Potential Challenges: Reduced participation
 - d. Timeline: The next panel would be in 2027
 - e. Status: Ongoing.
- 6. 2026 Charge: Discuss and organize another 3D printing symposium and potential workshop for the year 2027 or 2028 (suggested date of 2029 is too long of a wait. I think. There should be enough advancements for an earlier symposium).
 - a. Action steps: Connect with potential collaborators in 2026
 - b. Resources needed:
 - c. Potential Challenges:
 - d. Timeline: 2028/2029
 - e. Status: Ongoing

Other standing charges:

1. Standing Charge: Review and update the MVCAC publication "Identification of the Mosquitoes of California" to ensure inclusion of all species of mosquito that are routinely detected in California. - No update
2. Standing Charge: Discuss and establish a strategy for preserving arbovirus samples for research needs. - No update.

Charges:

1. Legislative Advocacy Day (LAD)
 - a. Action steps: Plan and Coordinate early 2026 between Legislative and PR Committee with Assistance from AMG and KP
 - b. Resources needed: Legislative Day Training, Leave Back Materials
 - c. Potential Challenges: Logistics of the day, attendance and covering all legislative offices.
 - d. Timeline:
 - i. January 2026 – confirm topics for focus for LAD with Committee, PR, KP and Executive Committee.
 - ii. February 2026 – Develop agenda and materials for LAD, development of training for LAD, Hold Legislative Review meeting with KP and Leg Committee after February 21st; Identify any bills that may be incorporated into LAD and training.
 - iii. March 2025 – March 10th at the Embassy Suites in Sacramento as part of the Spring Meeting.
 - e. Status:
2. Mosquito Awareness Week Resolution
 - a. Action steps: Identify and author for MAW resolution for April 12-18(?)
 - b. Resources needed: Legislator to Author:
 - c. Potential Challenges: Finding the Author
 - d. Timeline: Identify Author for MAW by February 2026
 - e. Status: Assemblyman Greg Wallis will author:
3. Develop legislation to create a State contingency fund to support mosquito control measures and expenses during public health emergencies or disasters.
 - a. Action steps: Write draft bill language and submit to state Legislative Counsel, secure a member of the Legislature to author the bill, develop support letters and collateral materials, work with the committee staff to set the bill for hearing, meet with the state departments to notify them of the need for the bill.
 - b. Resources needed: KP staff time, MVCAC grassroots engagement, Legislative Committee approval
 - c. Potential Challenges: State budget deficit
 - d. Timeline: Find author by end of January 2026, begin legislative process at that point.
 - e. Status:

4. Support or Oppose introduced Legislation that affects California Integrated Vector Management Programs.
 - a. Action steps: Legislative Committee to work with KP staff reviewing, identifying, and tracking introduced legislation; determine positions on introduced legislation that impacts IVM programs; Stay connected with CSDA legislative effort (via Clausnitzer and Young) and determine as an Association what bills MVCAC may want to support or oppose alongside CSDA.
 - b. Resources needed: Legislative updates from KP; Committee members tracking legislation that is introduced to assist KP. <https://legiscan.com/CA>
 - c. Potential Challenges: Legislation.
 - d. Timeline:
 - i. January/February monitor introduced legislation.
 - ii. Last day to introduce bills is February 20, 2026
 - iii. Week of February 23th or March 1st hold bill review meeting with KP and Legislative Committee. Some bills may be folded into LAD talking points if necessary.
 - iv. Determine initial position on bills of interest to be submitted to MVCAC Board by Spring board meeting
 - e. Status:

Standing charges

1. Review with the Executive Director pending legislative bills and regulatory changes that may impact vector control activities.
2. Contact members when grassroots effort is needed to inform legislators.
3. Represent the MVCAC and testify when appropriate on bills or regulations of concern and keep the Board of Directors informed.
4. Work with the MVCAC's service providers to arrange for legislators or legislative staff to speak at interim meetings and at the annual conference as appropriate.
5. The Chair coordinates with the MVCAC President, Executive Director, and Legislative Advocate to address the Association's legislative concerns, and with other agencies as necessary to develop or modify relevant legislation.
6. Annually monitor status of CalSurv funding in state budget in coordination with the VectorSurv Committee.
7. Support Association Grassroots Outreach programs and target recess periods for call to action to Districts to meet with Legislators and their staff in the District.

COMMITTEES

Public Relations

Member	District
Robert Gaona (Chair)	Coachella Valley MVCD
Nola Woods	Contra Costa Mosquito and Vector Control District
Judith Pierce	Alameda County Mosquito Abatement District
Erick Arriaga	Delta Mosquito and Vector Control District
Luz Maria Robles	Sacramento-Yolo Mosquito and Vector Control District
Brian Brannon	Orange County Mosquito and Vector Control District
Adara Culpepper	Merced County Mosquito and Vector Control District
Allyx Nicolici	California Department of Public Health
Anais Medina Diaz	San Gabriel Valley Mosquito & Vector Control District
Meagan Luevano	KP Public Affairs

Charges:

1. Create school and community event materials to support MVCDs in their outreach.
 - Outreach materials needs assessment, collect materials and develop resource hub of documents
 - Based on the needs assessment, draft outreach materials for event booths
 - Video series for social media (i.e. "Check your yard in 60 seconds!")
 - Education PowerPoint for classrooms
 - Develop new education materials and translation as needed by the membership (i.e. Chagas, rickettsia, typhus, cannabis, pollinators, etc.)
 2. Use LinkedIn to raise awareness and enhance association visibility.
 - Establish LinkedIn profile and page
 - Post news articles and thought leadership pieces
 - Help promote MVCAC members' content
 - Grow page followers and connect with stakeholders
 3. Support MVCAC members in Prop 218 outreach and communications efforts.
 - Develop resource hub of Prop 218 outreach materials
 - Create new materials if needed to help support Districts, i.e. toolkit of materials to use in Prop 218 outreach, draft press release, etc.
 - Host education webinars with guest speakers to assist Districts with planning
 4. Support efforts to educate policymakers about mosquito and vector threats and the role MVCAC and its member agencies play in protecting public health.
 - Consider placing an opinion editorial to support legislative or regulatory efforts
 5. Elevate MVCAC and its members as thought leaders and increase partnerships with key stakeholders.
 - Identify speaking opportunities for MVCAC members at conferences and participate in other relevant events or working groups. (i.e. public health, cemetery directors, PAPAs presentations, etc.)
 6. Raise awareness of the impacts of mosquito and vector-borne diseases by creating testimonials from West Nile virus, Dengue, and Lyme disease survivors.
 - Testimonial outreach including videos and articles
- Current Subcommittee: Luz Maria Robles, Nola Woods, Adara Culpepper

Standing Charges:

1. Work with MVCAC leadership to promote community partnerships and encourage cooperative ventures to benefit vector control, public health, and the environment.
 - Pacific Southwest Center of Excellence in Vector-Borne Diseases
 - CalSurv Gateway
 Subcommittee member: Luz Robles
2. Promote MVCAC and assist leaders, administration, and members with proactive and reactive media outreach, and development of talking points, collateral materials, and digital assets.

Subcommittee member: Meagan Luevano
3. In cooperation with the Legislative Committee, KP and AMG, assist in preparation for MVCAC's annual Legislative Day.

Subcommittee members: Meagan Luevano (lead), Lisa Yarbrough
4. Provide materials and assist in implementing California Mosquito Awareness Week, National Mosquito Awareness Week, and World Mosquito Day outreach and media campaigns.
 - Mosquito Awareness Week
 - National Mosquito Control Awareness Week
 - Lyme Disease Awareness Month
 Subcommittee members: Meagan Luevano (lead), Luz Robles.

Charges:

1. Engage in the NPDES renewal process.
 - a. Outcome desired: an updated permit with minimal impacts on the work of MVCDs
 - b. Action Steps: Work with SWRCB on the permit renewal.
 - c. Resources needed:
 - d. Potential Challenges: Making sure there are no drastic changes that the State Water Resources Control Board wants to put into place during permit renewal.
 - e. Timeline: permit issued spring 2027; renewal by Aug 2027 to avoid fees
 - f. Status: an administrative draft was shared in 2025 and MVCAC provided comments.
2. Engage with CDPR on updating the Vector Control Exemption in the Pollinator Protection Code.
 - a. Outcome desired: reduced regulatory confusion
 - b. Action Steps: Propose removing the Vector Control Exemption in the Pollinator Protection Code due to lack of applicability
 - c. Resources needed:
 - d. Potential Challenges: Opening the code may have other consequences. In this case, we are proposing a narrow reasoning - that the pesticide referred to no longer exists.
 - e. Timeline: TBD - DPR's timeline
 - f. Status: MVCAC has come to an agreement that reducing the language in the code would be appropriate..
3. Engage with the California Business, Consumer Services and Housing Agency on the impacts of cannabis farming on mosquito control operations.
 - a. Action Steps: Determine the steps need to implement the proposed changes to detection limits outlined in the memo to the Department of Cannabis Control before they reorganized.
 - b. Resources needed:

- c. Potential Challenges:
- d. Timeline: TBD
- e. Status: Waiting for updated code.
- 4. Pesticide registrations
 - a. Outcome desired: increased transparency on registration process and improved speed to approval by CDPR
 - b. Action Steps: Gather examples and information on how delays in pesticide registrations are impacting mosquito and vector control
 - c. Resources needed: categorizing these into system; work with Legislative Committee (and PR) on how to tell the story
 - d. Potential Challenges: others may not have the same sense of urgency that we do
 - e. Timeline: this is high priority - examples need to be gathered soon.
 - f. Status:
- 5. CARB
 - a. Outcome desired: a reasonable implementation of SORE regulations that match the available products for mosquito and vector control applications
 - b. Action Steps: Gather examples and information on how delays what is available with comparisons on how well products work
 - c. Resources needed: categorizing these into system; work with PR on how to tell the story; Research or IVM may want to partner?
 - d. Potential Challenges: others may not have the same sense of urgency that we do
 - e. Timeline: this is high priority - examples need to be gathered soon.
 - f. Status: seeking information from member agencies and from industry partners on what is available and what is being used

Standing Charges:

1. Review and present information about existing or proposed regulations and programs that may impact vector control agencies.
2. Coordinate with the Executive Director; act as a liaison between MVCAC and local, state, and federal agencies responsible for wildlife management and protection.
3. Monitor issues at the State Water Resources Board that are likely to impact mosquito and vector control.
4. Maintain a clearing house of information concerning compliance with CEQA.
 - a. Updated in 2025; next formal request in 2027. Always available: CEQA status survey.
5. Subcommittees
 - a. NPDES
 - b. AB 896 CDFW and MVCAC Working Group - Evaluate the impact of mosquito management practices employed at wetlands managed by CDFW.
 - c. Trash Capture Device Working Group - Review existing and new devices proposed to capture trash in stormwater structures.

Charges:

- Develop a vector control-oriented presentation to be provided to PAPA (Pesticide Applicators Professional Association) directed events.
 - Action steps: Develop presentations, schedule with PAPA organizers opportunities to present, provide presentations at directed events.
 - Resources needed: Speakers for PAPA events that will be contacted by T&C committee members.
 - Potential Challenges: Scheduling conflicts with PAPA events, speaker availability.
 - Timeline: December 2026
 - Status: Ongoing
- In cooperation with the IVM committee, review and record Aedes-based training events to submit for CEU qualification.
 - Action steps: Communicate and manage recording needs with the IVM committee based on Aedes training sessions held.
 - Resources needed: Aedes training session management.
 - Potential Challenges: Time conflicts and content qualifications
 - Timeline: December 2026
 - Status: Ongoing
- Develop and distribute an independent agency VCTE review questionnaire. Based on results, publish to website best practices sheet for independent agencies review.
 - Action steps: Perform final analysis based on participation results.
 - Resources needed: N/A
 - Potential Challenges: N/A
 - Timeline: April 2026
 - Status: Ongoing

Standing Charges:

- Produce original content and secure approval of existing content to provide sufficient number of webinars, supplementing live sessions, to complete CEU training requirements..
 - Action steps: Continue posting approved and recorded webinars to statewide website for 2025-27 cycle. If needed produce additional content for categories that may be lacking sufficient materials.
 - Resources needed: Volunteer webinar speakers as needed.
 - Potential Challenges: Scheduling conflicts and timing with traditional mosquito season to produce and approve potential webinars.

-
- d. Timeline: June 2027
 - e. Status: Ongoing
 2. In conjunction with CDPH, evaluate current CEU guidelines and identify potential changes to increase regional training efficiencies.
 - a. Action steps: Evaluate current CEU guidelines and communicate any changes/ updates to association as needed. Ensure appropriate recorded sessions are available to association well before cycle completion.
 - b. Resources needed: None at this time.
 - c. Potential Challenges: Enough archived webinars in each category to meet cycle requirements: A=12, B=8, C=8 and D=8.
 - d. Timeline: June 2027
 - e. Status: Ongoing
 3. Coordinate the Association's program of regional continuing education and statewide webinar development, maintaining expected training standards.
 - a. Action steps: Work with regional representatives to produce and execute in person training sessions that satisfy state requirements for biennial training.
 - b. Resources needed: None at this time.
 - c. Potential Challenges: None currently.
 - d. Timeline: Ongoing
 - e. Status: Ongoing
 4. Review submitted training curricula and recommend approval to CDPH representative.
 - a. Action steps: Will be completed on a Regional basis.
 - b. Resources needed: None at this time.
 - c. Potential Challenges: None at this time.
 - d. Timeline: Ongoing
 - e. Status: Ongoing

Vector & Vector-borne Disease

Member	District
Kelly Furey (Chair)	Marin/Sonoma MVCD
Kim Hung	Coachella Valley MVCD
Doug Kunz	Coachella Valley MVCD
William Reisen	UC Davis
Erik Blosser	California Dept of Public Health
Adena Why	Alameda County Vector Control
Casey Hubble	Placer MVCD
Mark Dery	Kern MVCD

Standing Charges:

1. Review and present new information on vectors and vector-borne diseases of interest to the MVCAC and make recommendations for their surveillance and control.
 - a. Action steps: Bill Reisen heads this charge: all committee members contribute items of interest to Bill, and he submits to MVCAC monthly, or more frequently if appropriate. A schedule of contributions has been established for 2025 to maintain improved participation.
 - b. Resources needed: None
 - c. Potential Challenges: None
 - d. Timeline: Ongoing
 - e. Status: Ongoing
2. In cooperation with the Laboratory Technologies Committee, develop long-term plans and agreements with CDPH, UC Davis, and MVCAC to ensure the continuation of statewide surveillance programs and appropriate diagnostics, up on the introduction of new vectors or vector-borne disease threats.
 - a. Action steps: Monitor and discuss new vector and vector-borne disease threats when they arise.
 - b. Resources needed: None
 - c. Potential Challenges: None currently
 - d. Timeline: Ongoing
 - e. Status: Ongoing
3. Monitor and report on vector-borne diseases in California.
 - a. Action steps: CDPH and DART continue to provide updates on arbovirus cases and testing statistics at quarterly meetings. Significant or emerging vector-borne diseases will be discussed to evaluate whether the issue should be “elevated” to Charge #2
 - b. Resources needed: None
 - c. Potential Challenges: None
 - d. Timeline: Ongoing
 - e. Status: Ongoing

2025 Charges (continued):

1. Create a document that provides information about how each district response to disease indicators/imported cases/increases in abundance
 - a. Action steps:
 - i. Clean results to match format across districts

-
- ii. Collect and review internal disease response plan documents from those districts who have agreed to provide them
 - b. Resources needed: None
 - c. Potential Challenges: Response from Districts with internal disease response plan documents
 - d. Timeline: Complete charge and provide filterable results to MVCAC membership by April 2026
 - e. Status: Ongoing

2026 Charges

1. Triatomine/Reduviidae identification resources
 - a. Action steps: Identify resources, divide work
 - b. Resources needed: None
 - c. Potential Challenges: None
 - d. Timeline: Complete charge by December 2026
 - e. Status: Ongoing
2. Ceratopogonidae identification resources
 - a. Action steps: Identify resources, divide work
 - b. Resources needed: None
 - c. Potential Challenges: None
 - d. Timeline: Complete charge by December 2026
 - e. Status: Ongoing

William Reisen	UC Prof Emeritus
Renji Hu	CDPH
Sarah Wheeler	Sac-Yolo MVCD
Wakoli Wekesa	East Side MAD
Jamie Mangan	San Gabriel Valley MVCD
Support	
Michelle Brown	West Valley MVCD – Board liaison
Sarah Valente	AMG

Standing Charges:

1. Standing Charge: Collaborate with other MVCAC Committees such as Vector Borne Diseases, Integrated Vector Management, Public Relations, and Regulatory Affairs to determine research needs and find appropriate solutions.
 - a. Action steps:
 - i. UPDATE SIT/Male Release Resources
 - b. Resources Needed: Google workspace exists and has been updated
 - i. Collaborate with VVBD, Reg Affairs to include 2025 updates, potentially include vendor contact info, technologies approved for use in CA
 - ii. Determine best means for share out to Association
 - c. Status: Ongoing
2. Champion the MVCAC research priorities, including building partnerships between MVCAC member agencies and the Pacific Southwest Center of Excellence in Vector-Borne Diseases (PacVec), state, and local agencies. (This charge is contingent in part on continued funding of PacVec.)
 - a. Action steps:
 - i. Review MVCAC research priorities annually and post updates to the MVCAC website.
 - ii. Encourage member agencies to collaborate with academic partners in submitting joint research proposals to PacVec to address research needs of the MVCAC.
 - iii. Work with member agencies and academic partners to establish an undergraduate internship program. Undergraduates would work during the summer months at a member agency collecting data for a project of interest, students return to campus and analyze data with a university mentor. Students then present their findings at the annual MVCAC conference.
 - b. Resources needed: Active reviewers, collaborators
 - c. Potential Challenges:
 - d. Timeline: Current List has been circulated to Regional Reps, Committee Chairs

- e. Status: Ongoing
- 3. Provide support to the editor of the MVCAC Annual Proceedings and Papers
 - a. Action steps:
 - i. Appoint or Reappoint the Editor of the Proceedings on an annual basis
 - ii. Investigate need for/potential structure of Ethics Standard for Proceedings papers and posters
 - b. Resources needed: Annual stipend for the Proceedings Editor and AMG support for the Proceedings
 - c. Potential Challenges:
 - d. Timeline: Editor for 2026 secured at Winter Board Meeting
 - e. Status: Up to date for 2026
- 4. Coordinate collaborative research investigations at the district level to improve the efficacy and efficiency of IVM programs.
 - a. Action steps: Investigate Availability/Comparability of EV application equipment
 - i. With Reg Affairs and IVM
 - ii. Investigate EV availability
 - 1. Who has been using?
 - 2. Vendor pipeline?
 - iii. Application efficacy vs. effectiveness
 - 1. Are comparative data available?
 - 2. Identify collaborations for evaluation
 - b. Resources needed: Collaborating agencies, potential vendor support,
 - c. Potential Challenges: Coordinating efforts, identifying any equipment that fits regulatory framework
 - d. Timeline: Ongoing
 - e. Status: Checklist of equipment types created and sent for initial review
- 5. Assess methods for making the MVCAC Proceedings searchable online and the feasibility of indexing individual papers
 - a. Action steps: Coordination to house and host proceedings publications has been initiated with University of California eScholarship.
 - b. Resources needed: Board approval of Creative Commons licensing type complete, future approval of author agreement and subsequent inclusion in 2027 Annual Meeting submission process needed
 - c. Potential Challenges: Completing organization of metadata, pdf archives
 - d. Timeline: begin archive sharing by August 2026
 - e. Status: Ongoing

ASCENDANT

RESIDENT ENGAGEMENT · VECTOR CONTROL DISTRICTS

Aedes Detected.

How do you alert your residents?

When a new *Aedes* population is detected, every hour counts. Ascendant gives vector control districts the tools to reach verified residents instantly — with targeted texting and confirmed contact data you can trust.

Use targeted texting for spray alerts, resident education, event notifications, and general awareness campaigns — whatever your district needs to communicate, fast.

No more guesswork. No outdated lists. Just direct, reliable text messages to the residents who need to hear from you most.

KONTROL FREAK™

KONTROL MORE!

With MasterLine™ Kontrol, public health pros don't just protect – they dominate.

Join the elite ranks of Kontrol Freaks dedicated to keeping communities safe from mosquito-borne diseases today!

- ▶ Superior formulation: clean and clear with low odor
- ▶ Broad label with quick knockdown for relief in seconds
- ▶ Versatile application by air, ground ULV, and barrier applications
- ▶ Available in gallons, drums and totes

At Vesperis, we're more than just a supplier – we're your partners in protection. With 80+ locations across North America, we're your **Preferred Choice** for top-notch products, innovative solutions, and expert advice tailored to your needs.

From our industry-leading MasterLine Kontrol products to convenient online training and shopping, Vesperis has everything you need to dominate your domain.

Visit [Vesperis.com/Kontrol-Freak](https://www.vesperis.com/Kontrol-Freak) to shop today!

BYLAWS OF THE ASSOCIATION

May 5, 2005
Amended May 1, 2008
Amended February 10, 2010
Amended February 1, 2012
Amended July 18, 2013
Amended July 20, 2017
Amended April 29, 2020
Amended July 28, 2022
Amended January 24, 2025

ARTICLE I. NAME

The name of this Association is the Mosquito and Vector Control Association of California.

ARTICLE II. OBJECTIVES

The objective of this Association is to promote cooperation among those directly and indirectly concerned with and interested in mosquito control and related subjects, to stimulate the development of improved methods and techniques and to disseminate information in relation thereto, and to aid in the advancement of this field in California and elsewhere.

ARTICLE III. MEMBERSHIPS AND AWARDS

Section 1. Membership in this Association will consist of five classes: Corporate Members, Associate Members, Affiliate Members, Sustaining Members and Honorary Members.

Section 2. Corporate membership is available to all Mosquito Abatement Districts, Vector Control Districts, Pest Abatement Districts and other local governmental entity, or any subdivision thereof, concerned principally with mosquito and vector control and directly engaged in mosquito and vector control in the State of California. Each Corporate Member will have one vote. Voting may be by mail, email or by a vote cast at a special meeting held as provided for under Article VII, Section 2. Corporate Membership must be approved by the Board of Directors.

Section 3. Individual Memberships.

- A. Associate Membership is available annually to employees of the University of California, the State of California, or to employees of any mosquito and vector control agency or related agencies outside of California. In addition, all employees and trustees of corporate members will be assigned associate member status. Associate members have no vote in the Association but may serve on committees. Benefits of associate membership shall be specified by the Board of Directors and may be amended periodically. Associate membership must be approved by the Executive Director.
- B. Affiliate Membership is available annually to interested persons who are not eligible for Associate Membership and who are not employed by an entity eligible for corporate or sustaining membership. Affiliate members have no vote in the Association. Benefits of affiliate membership shall be specified by the Board of Directors and may be amended periodically. Affiliate membership must be approved by the Executive Director.

Section 4. Sustaining Membership is available annually to any organization, company or individual that is engaged in a trade activity related to mosquito or vector control or is interested in furthering the efforts of the MVCAC. Sustaining Members have no vote in the Association and must be approved by the Executive Director.

Section 5. Honorary membership may be conferred on any person who has rendered exceptional, distinguished service in the interest of mosquito or vector control in the state of California. Nomination for this honor requires written endorsement by five or more Corporate Members addressed to the Board of Directors and accompanied by a written description of the individual's qualifying accomplishments and achievements. Upon receipt of

such an endorsement, the Executive Director will prepare a mail or email ballot and submit that ballot and written description about the individual to all Corporate Members. Ballots must be returned within 30-days from the date of mailing. To receive special recognition through honorary membership in MVCAC, the nominee must receive two-thirds vote of the Corporate Membership, with the vote determined based on the number of timely submitted ballots. The results of the mail ballot will be announced at the next Association Board of Directors meeting after the ballot deadline. Honorary members pay no dues and they have no voting rights in the Association. The recipient may receive the award at the Annual Conference or any other Board meeting.

Section 6. At all meetings of this Association, all members, regardless of membership type, will be permitted to take part in the discussion and proceedings.

Section 7. Meritorious service awards may be conferred on members or nonmembers who have made special and significant contributions to the field of mosquito or vector control in the State of California or elsewhere. Meritorious service awards shall be conferred by the same procedure as established for honorary membership in Section 5. Recipients of meritorious service awards have no vote in this Association and pay no dues.

Section 8. Service with Distinction Awards may be conferred on those who have made a significant contribution to fulfilling the mission of the Association. They must meet the following criteria: Made exceptional professional or voluntary service in support of the advancement and continued excellence of the Association; have earned national or international distinction for their services in the subject of mosquito and vector control; have made a significant contribution to any local community within the jurisdiction of their agency and focused on mosquito and vector control. Submission Process:

1. Any individual, member agency, or entity within MVCAC may submit a nomination for another individual or entity.
2. If the nominator has a personal or business relationship with the individual, it must be clearly stated as an addendum to the nomination.
3. As much relevant information as possible needs to be included with the application, as the ad hoc Awards Committee will make its judgments based only on the information provided.
4. No individual may nominate themselves.

Upon receipt of the nomination documents, the Association President shall appoint an Ad Hoc Awards Committee. This award is open to multiple types of individuals; therefore, the president will appoint an Ad Hoc committee with members that represent the nominee's demographic. This committee shall have five members, with at least one being a trustee member. Depending on the number of nominations, there may be multiple committees formed to make the decision on multiple nominees. The Awards Committee will submit their recommendations to the Board of Directors (via the Executive Director) to prepare the ballot to the membership. Service of Distinction awards shall be conferred by the same procedure as established for honorary membership in Section 5. Recipients of the Service of Distinction Award have no vote in this association.

Section 9. The Presidential Citation award is conferred to a member or non-member of the Association in recognition of outstanding contributions to the advancement of the Association's mission and goals that do not fall within the criteria for MVCAC's other awards. The citation is not presented every year, but only on occasion of exceptional individual merit. It is suggested to select a maximum of 2 awardees per year. Any member can make a nomination however, not all nominees will receive an award. To nominate someone, the president or other Association member will provide a brief statement of why the nominee should be selected for a Presidential Citation to the Board President. The President will then select up to 2 nominees and have those choices confirmed by the Association Executive Committee.

Section 10. The MVCAC shall annually provide an award to the retiring President upon completion of the term of office.

ARTICLE IV. BOARD OF DIRECTORS

Section 1. The Board of Directors of this Association will be composed of the President, President-Elect, Vice President, immediate Past President, one Trustee at large representative and five Regional Representatives. Additionally, the Treasurer will serve as a non-voting member of the Board.

Section 2. The Board of Directors will:

- A. Manage the affairs of this Association between the Annual Conferences.
- B. Prescribe the duties of officers and committees.
- C. Appoint an Executive Director and define duties of the office.
- D. Appoint a Treasurer and define duties of the office.
- E. Appoint or employ help as necessary and define the duties of each.
- F. Obtain an annual audit or financial review of the account of this Association and cause the written report to be given at the next Board of Directors meeting following completion of the audit or financial review.
- G. Set the boundaries of the geographical regions.
- H. Determine the dues for Associate and Sustaining Members and contractual payments for Corporate Members, subject to recommendations by the Trustee Council. Dues and contractual payments for each calendar year are due and payable in July of that year and become delinquent on the first day of September that same year.
- I. Determine the number and price of each publication which will be distributed to the various members and others.
- J. Determine the budget for the succeeding year.
- K. Develop and maintain Standing Rules of this Association.

ARTICLE V. OFFICERS AND DIRECTORS

Section 1. The Officers of this Association, who are members of the Board of Directors, will be a President, President-Elect, Vice President and the immediate Past President. Other directors will include the Trustee at large representative and five Regional Representatives.

Section 2. Each officer will be a manager or a member of a governing board of a Corporate Member.

Section 3. The President is chairperson of the Board of Directors and has the usual duties which pertain to the office, subject to the authority of the Board. They are empowered to:

- A. Call a meeting of the Board of Directors.
- B. Select the Chairperson and members of standing and special committees except nominating, subject to approval by the Board of Directors.
- C. Be an ex-officio member of all committees except nominating.
- D. Execute with the President-Elect, Executive Director or Treasurer legal and fiscal documents.

Section 4. The President-Elect will act in the absence of the President and will assist the President whenever requested. During the year following assumption of office, the President-Elect will become familiar through conference, with the President and other members of the Board, with details of business and affairs of the Association. The President-

Elect is empowered to execute with the Executive Director or Treasurer legal and fiscal documents and will act as the program Chairman for the forthcoming Annual Conference.

Section 5. The Vice President will assist the President and the President-Elect with the duties of their offices as requested and coordinate the activities of the Committees of the Association.

Section 6. The five Regional Representatives of the Board of Directors will represent the interests of the five regions of the State: Coastal, Sacramento Valley, Northern San Joaquin Valley, Southern San Joaquin Valley, and Southern California. They will call meetings of the members of their respective regions, keep minutes of such meetings and make them available to the MVCAC Executive Director and conduct regional voting as appropriate. Each Regional Representative will be a managerial or administrative employee of a Corporate Member.

Section 7. The Treasurer shall be a non-voting member of the Board. The Treasurer shall be responsible for overseeing the financial affairs of the Association.

- A. The Treasurer shall serve a term of three (3) years, with the option to be reappointed for a second term subject to the approval of the Board.
- B. The Treasurer shall be appointed by the Board of Directors.
- C. Duties and responsibilities of the treasurer shall include but are not limited to:
 - a. Receiving and reviewing monthly financial reports including investment reports.
 - b. Presentation of the financial report at each board meeting.
 - c. Working with staff to develop and present the annual budget.
 - d. Serve as custodian for all MVCAC financial accounts and approval of all financial transactions.
 - e. Ensure compliance with all financial reporting and tax requirements applicable to nonprofit organizations.
- D. Qualifications of the treasurer include:
 - a. An active member of MVCAC (required).
 - b. Understanding of financial and tax reporting requirements for non-profit organizations.

Section 8. Nomination and election of officers and Regional Representatives.

- A. The immediate Past President will serve as the Chairman of the Nominating Committee.
- B. Prior to the summer Quarterly Board of Directors meeting, the Chairman will select two additional managers or members of a governing Board of Corporate Member to serve on the Committee.
- C. The Nominating Committee will select nominees for the elected officers of this Association; at least one for each office. Elected officers of the Board include: Incoming Vice President, President Elect, President, Treasurer, and Trustee at large. The Nominating Committee will present a slate of candidates for ratification by the Board of Directors at its summer Quarterly Board of Directors meeting. Nominations may also be taken from the floor at the summer Board of Directors meeting. At least fifteen (15) days before the fall Board of Directors meeting, the Nominating Committee will send to each Corporate Member, through the Executive Director, an election ballot consisting of the names of the nominees selected.

- D. Officers will be elected by a simple majority of mail or email ballots cast by Corporate members prior to the fall Board of Directors meeting and will take office at the first Board meeting of the year following the election. Each elected officer will serve for a term of one year.
- E. The nomination for Treasurer shall be made by the Nomination Committee to the board at least thirty (30) days before the Fall Board of Directors meeting if the current term of Treasurer is expiring. The board will vote to appoint the Treasurer at the Fall Board meeting.
- F. Regional Representatives of the Board of Directors will be elected, one from each geographical region, by the Corporate Members of each region, prior to the December Planning session. Each region may also elect an alternate who may serve in the absence of the Regional Representative.
- G. Regional Representatives serve for a term of one year, subject to renewal.
- H. The Trustee at large official will be elected as described in Section 7c and 7d. They will serve for a term of one year, subject to renewal.

Section 9. As soon as possible after the fall Board of Directors meeting, the President-Elect will propose, subject to approval by the Board of Directors at its next meeting, standing committees, except nominating, with their chairmen. At any time during the year special committees may be formed by the President subject to approval of the Board of Directors.

Section 10. Vacancies:

President: If a vacancy occurs in this office during the year, this office will be filled by the President-Elect.

President-Elect: If a vacancy occurs in this office during the year, this office will be filled by the Vice President.

Vice President: If a vacancy occurs before August 1 of any year, the President will instruct the Nominating Committee to select one nominee. The Chairman of the Nominating Committee will report this selection to the Board of Directors through the President. If approved by the Board of Directors, the nominee will be officially declared to be the Vice President. If the Board of Directors should reject the proposed nominee, the Nominating Committee will select another nominee and continue this procedure if necessary, until one is approved by the Board of Directors. If the vacancy occurs after August 1, the President and the President-Elect will assume the duties of the Vice President.

Treasurer: In the event of a vacancy in the position of Treasurer, the President, with the approval of the Board, shall appoint a replacement to serve out the remaining term.

ARTICLE VI. CONFERENCE AND MEETINGS

Section 1. Annual Conference: There will be an Annual Conference of this Association for the presentation of papers and discussion on mosquito control and related subjects. This conference will be held at such time and place in California as the Board of Directors selects. Conferences held outside of California will be considered only if approved by 2/3 vote of the Board of Directors. At least 35 days prior notice will be given to all members announcing the time and place of the Annual Conference.

Section 2. Special Meetings:

- A. The Board of Directors will call a special meeting of the entire membership whenever it believes such is necessary, or when it receives a request in writing or email supported by representatives of five or more Corporate Members. A request for such a special meeting will indicate the topic for disposition or the reason for the special meeting. The Board will be bound thereby to set a place and date no sooner than

thirty-five (35) days nor greater than sixty (60) days after the receipt of the request.

- B. Special meetings of the general membership for consideration of technical subjects, field demonstration, local problems or similar matters may be held at times and places selected by the sponsoring group or committee.
- C. Regional meetings of an informal nature may be called by the respective Regional Representatives at any time.

Section 3. Board of Directors Meetings: The Board of Directors will meet upon call of the President, or upon request of three or more Directors directed in writing to the President. At least ten (10) days prior notice in writing will be given by the President to all members of the Board announcing the time and place of Board meetings.

Section 4. Voting.

- A. A simple majority of Corporate Members will constitute a quorum for the transaction of business by mail ballot or at any special meeting.
- B. Five members of the Board of Directors will constitute a quorum at a meeting of this body.

ARTICLE VII. AMENDMENTS TO THE BYLAWS

Section 1. These Bylaws may be amended at any regularly scheduled meeting of the Board of Directors.

Section 2. Amendments may be submitted at any time by a Region, a Corporate Member, the Executive Committee, or by the Executive Director. Proposed amendments will be submitted in writing to the Board of Directors, through the Executive Director. At their next regularly scheduled meeting, the Board of Directors will charge the Executive Committee and the Executive Director to review any proposed amendments and develop appropriate language for preparation of a ballot.

Section 3. Ballots including any proposed amendments will be mailed by the Executive Director to each Corporate Member at least twenty-five (25) days before the next regularly scheduled Board meeting. Ballots shall be returned to the Executive Director for counting at least ten (10) days prior to the next regularly scheduled Board meeting.

Section 4. A vote of two-thirds of the Corporate Members voting by mail or email ballot will approve the amendment. The Board of Directors shall ratify the amendment at its next regularly scheduled meeting. The amendment will go into effect immediately unless otherwise specified in the resolution.

*Key: Agency Type & Funding 1) Mosquito Abatement/Vector Control Districts governed by an appointed Board, all of whom are appointed for fixed terms; 2) Mosquito Abatement/Vector Control Districts governed by County Board of Supervisors or by an appointed Board having at least one member who is ex-officio; 3) County Service Area; 4) County Health or Environmental Health Department. Funding: P=Property Taxes, SC=Service Charge, B=Benefit Assessment, O=Other, C=Contract

GEOSPATIAL APPROACH FOR HEALTHY COMMUNITIES

Frontier Precision provides complete office and field solutions for mapping, collecting, and reporting Integrated Mosquito Management Plan activities. FieldSeeker® GIS for Mosquito Control software is designed to be the hub for all important data so it may be shared, analyzed or updated throughout an organization.

FieldSeeker Core is a cloud-based system leveraging the Esri® ArcGIS® Online or ArcGIS Enterprise platform to provide users with simple, intuitive tools for mapping, collecting and reporting data related to mosquito control activities. Field and office users benefit from seeing a common up-to-date picture of their operations. Data is centrally located so it may be shared, analyzed, or updated throughout an organization.

AMGUARD™
ENVIRONMENTAL TECHNOLOGIES

MANAGING RESISTANCE FROM ABOVE

For more than 50 years, Dibrom® Concentrate has been the leading aerial adulticide for mosquito control. Dibrom Concentrate and Trumpet® EC are proudly manufactured in the United States.

FEATURING

- ✓ Effective against pyrethroid-resistant mosquito and fly populations
- ✓ Equipped for closed loading
- ✓ Mission critical distribution and technical support
- ✓ Low application rates

DIBROM CONCENTRATE

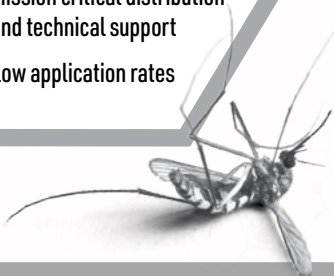

Naled 87.4%

TRUMPET® EC

Naled 78.0%

Agricultural &
Environmental
Solutions

**BUILT FOR THE FIELD.
BACKED BY DECADES
OF RESULTS.**

TRUSTED BY PROFESSIONALS SINCE 1985

Training & Education

From rodeo-style demos to in-depth workshops, our Technical Sales Reps bring the training to you—some sessions even count for CEUs! Learn, connect, and sharpen your skills.

Smarter Spray OperationsSM

Streamline your spray operations with Monitor Flex—a simple solution for capturing and managing data from adulticide applications, right from the field.

Superior Products

We carry larvicides and adulticides formulated by our trusted manufacturers to deliver effective mosquito control with cutting-edge biological and chemical technologies.

Ongoing Field Support & Equipment Repair

Get expert diagnostics, preventative maintenance, and rapid repairs to keep your spray equipment and operations running without interruption.

NATIONWIDE REACH, LOCAL SUPPORT.

Talk to one of our Vector experts.

MEDIA INFORMATION

Participate in the Media Dialogue

Districts can act as localized spokespeople with media outlets and serve as an important resource for your district and MVCAC as an organization. If there is an issue that you feel strongly about or have expertise in, you can author a letter-to-the-editor or an opinion editorial piece for your local newspaper. If MVCAC receives an inquiry from a reporter in your area, we may call upon you to provide a local perspective. Some tips for interviews with reporters include:

1. Plan ahead and outline the main points you want to get across to the reporter. Try to stay on topic and keep your answers short and simple. If the reporter veers onto another subject, politely try to re-direct the conversation. MVCAC’s PR team can help by sending talking points and background on the issue being discussed.
2. Anticipate difficult questions and have answers prepared in advance. These may not be issues you want to bring up, but are topics that you should have an answer to if asked. It is better to have a short explanation – even if you don’t say that much – rather than say “no comment.” MVCAC’s PR team can help by providing background on the reporter, his/her story angle, and anticipated questions.
3. Always be factual and accurate. Do not try to guess or estimate. If you don’t know the answer to something, say so, and let the reporter know that you will follow up with the information.
4. Never make an “off the record” comment – you should not say anything that you do not want the general public to read or hear. Always remember that you are representing MVCAC in addition to your district.

If your district receives an inquiry from local media, please be sure to also direct them to the MVCAC website to access the “media kit” for further information. If a media opportunity arises please be sure to contact MVCAC’s PR representative noted below to ensure the association is capturing all of the great opportunities being pursued.

A COMMITMENT TO THE HEALTH AND COMFORT OF THE PEOPLE OF CALIFORNIA

In 1930, representatives of mosquito abatement districts, the University of California, the California State Public Health Department, and industry met in conference. Following discussions of the problems facing administrators and scientists engaged in mosquito control and comparisons of alternate solutions, the group agreed to continue annual conferences and to establish the California Mosquito Control Association. In 1951, the Association filed for incorporation and in 1976 the name California Mosquito and Vector Control Association, Inc. (CMVCA) was adopted to reflect more accurately its total horizon of interest. The Association has been active continuously since 1930, striving to meet its objectives to promote cooperation among mosquito control workers, to stimulate development of improved technology and to disseminate the information. These activities have advanced professionalism and expertise among mosquito control workers. The California program is recognized nationally and internationally as a leader in this field.

In 1990, a nonprofit public benefit corporation entitled the “CMVCA Research Foundation, Inc.” was formed by CMVCA to promote scientific research for the control of disease bearing mosquitoes and other vectors.

In 1995, the name “Mosquito and Vector Control Association of California” (MVCAC) was adopted as well as a new logo to place more emphasis on what we do and what we are all about, by placing mosquito and vector control first.

The MVCAC, through annual meetings and periodic workshops, offer an exchange of technical and professional information. The Association has a lobbyist and a legal counselor, a training program necessary to comply with vector certification requirements, and published the Proceedings and Papers of the Annual Conferences and a directory of the Association entitled, “The Yearbook” as well as a Vertebrates of Public Health Importance in California, Arthropods of Public Health Importance in California, and many other mosquito and related vector control publications each year. Recent special publications produced and/or published by MVCAC for use by its members, individuals and other agencies include “Pesticide Application and Safety Training for Applicators of Public Health Pesticides” and “Biology and Control of Mosquitoes in California” (both publications come with Chapter Questions and Practice Examinations booklets). The CMVCA Research Foundation is currently supporting surveillance for mosquito-borne encephalitis as well as research on improvements in surveillance methods.

The MVCAC is a California nonprofit corporation and has been designated by the IRS as an organization qualified to receive tax deductible contributions. Similarly, the CMVCA Research Foundation is a California nonprofit corporation and has been designated by the IRS as an organization qualified to receive tax deductible contributions. Bequests, legacies, devises, transfers or gifts to either MVCAC or the CMVCA Research Foundation are deductible for federal, estate and gift tax purposes.

AMERICAN MOSQUITO CONTROL ASSOCIATION

1 Capitol Mall, Suite 800

Sacramento CA, 95814

Phone: [888-626-0630](tel:888-626-0630)

Fax: [916-444-7462](tel:916-444-7462)

Membership and General

amca@mosquito.org

Meetings

meetings@mosquito.org

The American Mosquito Control Association is a non-profit educational and scientific association, supported mainly by its members for the purpose of encouraging scientific mosquito control, thereby tending to preserve or improve the environment. A major activity is the exchange of information resulting from research and experience. This is accomplished through the publication of the Journal of the American Mosquito Control Association, AMCA Newsletter, Wing Beats and special publications.

BECOME A MEMBER

Regular Membership: \$155

Receives 4 issues of the AMCA Newsletter, monthly issues of the e-Newsletter, Members Only access to website resources (including past issues of the journal), and Regular and Retired pricing discounts for the annual meeting (a savings of \$150+ over the non-member pricing). This category also includes the right to vote on Association matters.

Retired Regular Membership: \$80

Receives 4 issues of the AMCA Newsletter, monthly issues of the e-Newsletter, Members Only access to website resources (including past issues of the journal), and Regular and Retired pricing discounts for the annual meeting (a savings of \$150+ over the non-member pricing). This category also includes the right to vote on Association matters.

International Membership (Members Outside US and US Territories): \$80

Receives 4 issues of the AMCA Newsletter, monthly issues of the e-Newsletter, Members Only access to website resources (including past issues of the journal), and Regular and Retired pricing discounts for the annual meeting (a savings of \$150+ over the non-member pricing). This category also includes the right to vote on Association matters.

Student Membership: \$38

Receives 4 issues of the AMCA Newsletter, monthly issues of the e-Newsletter, Members Only access to website resources (including past issues of the journal), and a Student Member pricing discount for the annual meeting. Students must enclose a letter from their advisor on University letterhead as proof of student status.

Visit <https://www.mosquito.org/page/becomemember> for more information.

CCMVAD – CALIFORNIA CONFERENCE OF MANAGERS OF VECTOR ABATEMENT DISTRICTS

1215 K Street, Suite 940
Sacramento, California 95814
Phone: [916-440-0826](tel:916-440-0826)

The California Conference of Managers of Vector Abatement Districts (CCMVAD) was formed to enable affiliation with the California Conference of Local Health Officers (CCLHO). Under California’s Health and Safety Code, the CCLHO plays an advisory role to the California Department of Health Services. MVCAC petitioned to become an affiliate of CCLHO in the early 1980s and could not, since the MVCAC’s members are agencies rather than people. CCMVAD was formed to automatically include any person managing a vector Control District as a member. CCMVAD was accepted as an official affiliate of CCLHO, which provides an opportunity to participate in their meetings and to have an opportunity to be heard. Other affiliates of CCLHO include the California Conference of Laboratory Directors, the California Conference of Directors of Environmental Health, and others.

The CCMVAD Board of Directors meets periodically in conjunction with the Board of Directors of MVCAC.

MVCAC Representative to CCLHO: Conlin Reis

WORKING WITH NATURE'S BROAD PALETTE

To achieve sustainable vector control, public health professionals need a broad palette to draw from - a comprehensive portfolio of target-specific solutions that not only help achieve the desired control, but also preserve the health and habitats of the people under their protections.

It is the Art & Science of Public Health.

Our customizable solutions:

Target the Right Species
Leverage Technical Information
Empower Public Health Professionals
